*Creating family memories for
almost ninety years*

Fish for fighting Kamloops Trout in the MEADOW LAKE chain of lakes, hike wilderness trails or just relax.

Meadow Lake has been a fishing camp since the early 1930's. Every lake contains the red meated Kamloops Trout who are such dazzling fighters. Three of our fourteen lakes are within a leisurely three to ten minute walk, several within twenty minutes, some longer.

Fishing is great from spring thaw end of May to ice-up in November. We clean, smoke, freeze and pack your catch. On request we serve it to you as a tasty breakfast fish.

While hiking in this wilderness area you may see abundant wildflowers, a moose at the water's edge, a loon's nest in a quiet cove, soaring eagles and osprey, deer feeding, and occasionally even a black bear.

After a delicious gourmet dinner relax at the fireplace on our huge deck, or in our comfortable Lounge. And on clear evenings admire the breathtaking vista of stars, or the full moon over Meadow Lake.

Come join us and our fourth generation Guests and start creating your own family memories with some of the most exciting fishing, scenic hiking and pleasurable relaxation in British Columbia, Canada at

MEADOW LAKE FISHING CAMP.
